

# Fear

## Bon Jovi

I see you lookin' over your shoulder  
Tell me who do you think is out there  
You're reachin' for your four leaf clover  
But baby there ain't no luck down there I swear that there's no heart in this city  
It's here the slogan reads "Do your time"  
Everybody's doin' their sentence  
It's just there ain't nobody here  
Who knows just what's the crime I watched my father live a lie here  
I'd rather die than fade away  
I read the rules and yeah I know them  
You ain't ever gonna  
Make me play the game of Fear  
Fear  
Fear  
Of a new thing Running with the rats through the city  
Makes you feel like you're a partner in crime  
Girl, once you were young and pretty  
Now won't you stop to watch that little girl did Hey baby, won't you stop and hear me  
Just bein' here we're breathing heart attacks yeah  
We can run and chase the setting sun baby  
We can run and we won't ever look back now Take my hand I know we'll make it  
I'll let nothin' slow us down  
I know you want to curse  
This place there's only one thing  
That's stopping us now is Fear, fear, fear  
Of a new thing  
Fear, fear, fear  
Of the brass ring You ain't one for takin' chances  
You work and you live and you breathe 9 to 5  
Still that's what you call livin'  
Man, that's surviving to me, surviving is livin' to die in Fear, fear, fear  
Of a new thing  
Fear, fear, fear  
Of the brass ring Fear, fear, fear  
Fear, fear, fear  
Fear, fear, fear

...
