

Warheads

Extreme

{Recruit when I gave you the word I want you to accept my bill until half
And hit the deck runnin' I want you to follow on those yellow foot prints
With your body at position of attention
Now when you all are gatherin' at my area head nose straight forward
You understand me?
Yes Daddy
I didn't hear you
Yes Daddy } Hey kid wanna have some fun?
Choose a side and here's your gun
Brought up knowin' right from wrong
Squash the meek inherit the strong Just try and cross the line
Don't even bother to waste my time
What's that look in your eyes?
It's time I cut you down to size This world ain't big enough for two
And I've got my sights on you Would you like to be?
I'm a warhead you're a warhead
A warhead just like me
He's a warhead she's a warhead
Watch 'em scream and yell
Would you like to be a warhead too?
When I blow them straight to hell, alright Rambo it's us and them just like your daddy in Vietnam
M-m-m-monkey see monkey do
Your boy's grown up just like you, like you This world ain't big enough for two
And I've got my sights on you, well on you Would you like to be?
Well I'm a warhead you're a warhead
A warhead just like me
He's a warhead she's a warhead
Watch 'em scream 'n yell
Would you like to be a warhead too?
When I blow them straight to hell I've seen black heads white heads
Red heads dead heads
Big heads shit heads
But there's no heads like warheads I guess this world ain't big enough for two
And I've got my sights on Would you like to be?
I'm a warhead you're a warhead
A warhead just like me
He's a warhead she's a warhead
Watch 'em scream 'n yell
Would you like to be a warhead too

When I blow them straight to hell Would you like to be?
I'm a warhead you're a warhead
A warhead just like me
He's a warhead she's a warhead
Watch 'em scream an' yell
Would you like to be a warhead too
When I blow them straight to hell Ooh yeah
