Forgotten Existence

Bolt Thrower

Storms calm neon skies
Still chilling winds roam the nuclear wastes
Haunting the conscience of a forgotten existence
Civilization's mistakePeace at last takes it's grip on the land
For a moment time stands still
Existing in the debris of bygone wars
Hope breeds an incentive not to killExistence declines, extinction, mankind
A lifetime of time slips awayResurrect mankind, sacrificed to power
From ruins to the birth of a new reality
Rising from the ashes of past destruction
Civilizations, new existenceLost in a void without future or past
Shattered mind in the presence of pain
Domineering desolation
Controlling the solitary plainsExistence declines, extinction, mankind
A lifetime of time slips awayDarkest fears dwell in man's mind
Insight to depths of what will be
Reclamation from the paths of destruction
From ruins to the birth of a new realityConstruction from destruction
Bringing back life to mankind
Rebuilding an existence sacrificed for power
A future with hope to findExistence declines, extinction, mankind
A lifetime of time slips away
Existence declines, extinction, mankind
Lifetime of time, now slips away
