Circle. Square. Triangle

Test Icicles

As these days pass
Underground
Breathe the air
Before you drownOne more time
Another line
Slowly defines
A thought deniedWe could do with some more poison
We could do with some more poison
We could do with some more poison
We could do with some more poisonBlinded by the burning lights
Turn them off, turn 'em off
Bodies break before there white
Exposure sense before it's lostDrawing lines
Making shapes
Stay alive
To sail awakeWe could do with some more noises
We could do with some more noises
We could do with some more noises
And the end is here in noisesWe could do with some more noises
We could do with some more noises
We could do with some more noises
And the end is here in noisesThe lines exist within the beat
The shapes are moving all over the screen
And I can see that nothings moving
Is this something thats not worth losing?This will do
Oh, it'll do
Still we couldWe could do with some more noises
We could do with some more noises
We could do with some more noises
And the end is here in noises
That's right
