Out There

Icp (insane Clown Posse)

The wicked clowns and Bushwick Bill are lost in space
Out thereThe car broke down and she was like, "Honey, get the flash light"
Still one in the dash right? Only 'cause it's late at night
And who knows what's out there
She was right tho', ain't gonna help with a light tho'
People dying tonight 'cause yo this maniac is out thereI'm hangin' like a possum, murder tricks I got some
Spot them, look, come around to the bottom
And slaughter them, out thereHis boo was locked up in the car on the phone and tripping hard
Screaming, fuck that bitch was scurried, "There's a killer out there"
Cut that crying shit off, I cut, you die, I get off
I'm crawling up on the car trying to rip the moon roof lid off, out thereBitch, turned the wipers on hazard lights and blew the horn
I smashed with my axe and pulled her to the lawn out there
She kicked me hard to the grill with one of them, Doc Martin heels
Murderas, you know how that feels, your lip be out thereTime to die, close my eyes, swung and felt a thump
An' I done split her head in half like a tree stump, out thereDon't you dare go out there, ain't no telling what lies out there
Don't you dare go out there, ain't no telling what can happen
Don't you dare go out there, ain't no telling what lies out there
Don't you dare go out there, late night killas might be stabbingLights on in the house but it's dark outside
You can even close one eye look an' bitch, I'm out there
Camp fire lit, Boy Scout meeting's, they talk of me
Even they leaders got memories of me, I'm out thereForensic scientists try to finger me out
But I'm too quick for their Sheriff's stupid asses, I'm still out there
Pull up all your road blocks, I'm running them them's in my socks
Silently taken out all cops, one by one, I'm out thereLeave they bodies in the street, continue on my murder spree
They can believe all my heat when I pull it out there
Break up into the Zoo, dress up in a monkey suit
Sticking up families for they loot, my brain, is out thereHandy with an ice pick, pull it out and use it good
In and out your temple blood is squirting all out there
I'm the urban legend you heard at your college dorm
Jump out and squeeze your vocal cords when you out thereDon't you dare go out there, ain't no telling what lies out there
Don't you dare go out there, ain't no telling what can happen
Don't you dare go out there, ain't no telling what lies out there
Don't you dare go out there, late night killas might be stabbingSomewhere out there a [Incomprehensible] of Bushwick
My mind loads clips at your block and leave you stuck bitch

A psychopath with a clasp and a black ski mask
Leave you in body bags for a news flashI might be small but I got big balls
Write my name on the wall
With bloodstains after the brawlEvil thoughts run deep in my brain
I'm sick and deranged so picture the pain
Flowing in my veins yeah, I'm sick, I'm sicker then HitlerMy gat spit streak mothafucking forbidden scriptures
Niggas run from a gun, forgetting they can't
I drag a Mossberg, 'cause it won't fit in my pantsI run up in your ride, it's parked and it's darken
Jump out your glove compartment, sparkin'
The shit that I do, make many faint
Dead saint, turn your blood into candy paintDon't you dare go out there, ain't no telling what lies out there
Don't you dare go out there, ain't no telling what can happen
Don't you dare go out there, ain't no telling what lies out there
Don't you dare go out there, late night killas might be stabbing
