Cream

Buckcherry

Cream on me, you will always be
My deepest love, yeah, yeah
Cream on me, you will always be
My deepest loveI get an early start
I know we're far apart
My family, they need me
But daddy's never homeI call you on the phone
You say you're all alone
Surrender my feelings
And try to make it workCream on me, you will always be
My deepest love, yeah, yeah
Cream on me, you will always be
My deepest loveAll this time, I draw the line
I'm gonna see it through
Till things get betterI won't cry and I can't deny
My days are coming
And you know I'm ready
Till things get better
Till things get betterIt's getting hard to change
Can't get back yesterday
The pictures remind me
The story fills the pageI think of all the days
Limelight and self-decay
My suitcase gets weaker
My voice sure needs a breakCream on me, you will always be
My deepest love, yeah, yeah
Cream on me, you will always be
My deepest loveCream on me, you will always be
My deepest love
