Out of This World

Ramp

When I look into people
They're looking into me
How hard I try
I cannot set freeI close down in myself
That's my protection
But day after day
Grows this bloody tensionTrying to get a way out
Trying just to be "sain"
I only see my room
To release all this pain... all this painLocked in my room
Out of this world
I face myself
Getting in control
Sorrow... breaks... and life will... it takesSo I feel this emotions so deep
Refuted from the outside world
And I close down in my room
Trying to get in control... controlAnd so I've the time
In my own life
Where things that come and go
Begin just passing me by... passing me byLocked in my room
Out of this world
I face myself
Getting in control
Sorrow... breaks... and life will... it takes
