

Stay at Home (feat. Future)

Usher & Zaytoven

Zaytoven

Big time

A time

Double down

Yeah yeah 'Til you been driving me crazy, 'til you been driving me crazy

Who you been texting daily, who you been texting daily

You know I don't do fugazi, you know I don't do fugazi

(Mhm, yeah, you know I don't do fugazi)

I hope you ain't lettin' him hit it, I hope you ain't lettin' him hit it

I hope you staying ambitious, I hope you being committed

Perpetrating them feelings, but that ain't the way you get it

(That ain't the way, that ain't the way)

You got too much cash be cautious

Never would admit you were starstruck

Thought about putting you in the Lambo truck

Thought about pulling out the brains, truck

Turn up the vibes in the main coast

So much drip need a raincoat

From Mexico to Tokyo

Hotel suite like a fashion show

Jameson is for the answers

I'll kill a nigga like cancer

Put on more rings than Cassius

Popping champagne out in Paris

Water my team, do better karats

No time to scheme, we livin' lavish

Hard to believe, how much karats

What I been through, you can't imagine

Turn up the juice, walk through the water

Bright berry booze, yeah

Soon as you seen me, started recording

Got something to prove

Saving my tax screenshots

Breaking the rules

You can't be jealous

A whole lot of bitches that hang with the crew

Oh-oh-oh

Only if you knew, then you know, and you know

Money fast, money fast, never slow

No need to boast, having a toast, doing the most
Wanna ride in the Ghost? (Wanna ride in the Ghost?)
Wanna feel like you're floatin'? (Wanna feel like you're floatin'?)
Phantom look like a boat (Phantom look like a boat)
Five karats my rope (Five karats my rope)
Look like I sell dope (Look like I sell dope)
Put some fur on my coat (Put some fur on my coat)
And them diamonds, they choke (And them diamonds, they choke)
Like I'm playing with they coat (Playing with they coat)
I was playing with they hoes
Some friends some foes
Hunnid M's in my bank account
Had to set some new goals
I was dripping the water out
That would leave a bitch cold (That would leave a bitch cold)
Had to call up the fire department
I was burning up dope (Burning up dope)
I was getting my money right
Then I went Pluto (Then I went Pluto)
And it could've been perfect timing
I was already on (I was already on)
Tell me you ain't been lying
'Cause I don't condone it ('Cause I don't condone)
You got a rock, started to keep your ass at home (Keep your ass at home)
Tell you been driving me crazy, tell
you been driving me crazy
Who you been texting daily, who you been texting daily
You know I don't do fugazi, you know I don't do fugazi
(Neck, wrist, finger, you know I don't do fugazi)
Hope you ain't lettin' him hit it, hope you ain't lettin' him hit it
I hope you staying ambitious, I hope you being committed
Perpetrating them feelings, but that ain't the way you get it
(The way you get it, that ain't the way)
I was dripping the water out
That would leave a bitch cold (That would leave a bitch cold)
Had to call up the fire department
I was burning up dope (Burning up dope)
I was getting my money right
Then I went Pluto (Then I went Pluto)
Couldn't have been more perfect timing
I was already on
Tell me you haven't been lying
'Cause I don't condone
You got a rock, starting to keep your ass at home
Oh, oh
Keep your ass at home
Need to stay at home
Stay at home, yeah
Yeah
