

Electric Lady

Justin Timberlake

Was just so ... for the night.
should have turned off
3x maybe leave on the light
Oh, electric lady
Was just so... for the night
Should have turned off
3x maybe leave on the light
Oh, hey, electric lady Oh my, ya skipping my heart
kiss in the dark witcha lightning eyes
Sit and I watch you ignite in fires all night
and you got the power you damn right
This life or day
Not gonna make it if we don't connect tonight Strike twice all night
Body moves like waves
You're reaching my heart fast
You're searching for something
That's just how electricity behaves
And I've been needin it so bad
The other ones don't last Wait a minute I feel a charge
I should have known how she glow in the dark
You turn it on and I touch it til it sparks
Electric lady oooh Wait a minute, until it drops
I feel it jump we get closer til we shock
You turn it on and I touch it til it sparks
Electric lady Love won't die, (running low) But girl ya
Love won't die
So what you're giving me girl
All that energy give it, here you know how it goes sometimes
Love won't die (running low) But girl ya
Love won't die
But if you need any girl
I got energy come and get it know how it goes Sometimes I need a little (No)
Give a little, If I get a little
We could meet any place
How 'bout the middle tonight
and you got the power
Baby you know if you're ever low
I would go low
And then you're back into the light Strike twice all night

Body moves like waves
You're reaching my heart fast
You're searching for something (yeaaa)
That's just how electricity behaves
And I've been needin it so bad
Them other ones don't last (Uh)Wait a minute I feel a charge
I should have known how she glow in the dark
You turn it on and I touch it til it sparks
Electric lady ooohWait a minute, until it drops
I feel it jump we get closer til we shock
You turn it on and I touch it til it sparks
Electric ladyMUSIC BREAKWas just so ... for the night.
should have turned off
3x maybe leave on the light
Oh, electric lady
Was just so... for the night
Should have turned off
3x maybe leave on the light
Oh, hey, electric ladyWait a minute I feel a charge
I should have known how she glow in the dark
You turn it on and I touch it til it sparks
Electric lady ooohWait a minute, until it drops
I feel it jump we get closer til we shock
You turn it on and I touch it til it sparks
Electric ladyLove won't die, (running low) But girl ya
Love won't die
So what you're giving me girl
All that energy give it, here you know how it goes sometimes
Love won't die (running low)
But girl ya Love won't die
But if you need any girl
I got energy come and get it know how it goes sometimes
