Rescue Me

Y&T

I was down, I was barely makin' it
She was gone and I couldn't take it
I was looking for a new way of thinkin'
When I go to sleep, I pray I wouldn't wake upWell, I want you, I want you to rescue meThe wheel kept turning, but I stood still
As the shadow looking for the man
Did I play to win or did I win to loose
Of all the cards I had to draw the foolAll people tellin' me about things I do
The more I hear, the less I see the truth
Oh, well, I'm on the edge, I can't look down
Oh, slippin', slippin', slippin' oh, helpI want you to rescue me, oh, rescue me
Oh, you know I want you
I want you to rescue me, oh, rescue meA voice faintly callin' from another time
Oh so strange, it sounds like mine
Shades of black and a twisted road
And I can't see the sky from hereOh, do I turn around? I go straight ahead
I can't stop now, I find the light somewhere
Oh, well, I'm on the edge, I can't look down
Oh, slippin', slippin', slippin', oh, helpI want you to rescue me, oh, rescue me
You know I want you
I want you to rescue me, oh, rescue meI want you, I want you to rescue me, oh, rescue me
Oh, you know I want you
I want you to rescue me, oh, rescue meOh, you know I want you
I want you to rescue me
Oh, rescue meOh, rescue me, oh, rescue me
