

# Change of Heart

## TOPS

all a sudden change of heart  
you don't see what you used to see  
a girl you've known forever now  
    is suddenly your fantasy  
    used to be another way  
you could talk to her about anything, it's bad  
    you don't know how she feels  
    so bad  
change of heartwasting, wasting a chance you're chasing  
    why you so afraid to face it?  
    acting like the girl's a ghost  
    wishing, what you want, apparition?  
    cloudy is your current condition  
change of heartwonder why you shy away  
    she wants to be your friend  
    she thinks you're mad  
    girl you know is turning back  
change of heartwasting, wasting a chance you're chasing  
    why you so afraid to face it?
