Burrito

Pete Yorn

It's a 7-11
Do you wanna take a walk outside?
If you want a burrito
You can have another bite of mineIt could last you forever
If you're not waiting for the callCome on over tonight
Come on over this morning
Momma says, "You only fall in love once"And you could leave here tomorrow
You know you wanted to have more
They were looking for answers
And if you never had them scoreYeah, it could last you forever
Just sit here in the storeCome on over tonight
Come on over this morning
Momma says, "You only fall in love once"And you think you know that they'll always be there
You never had the time, I want you to be fineIt's a 7-11
Do you want to take a walk outside?
If you want a burrito
You can have another bite of mineIt could last you forever
If you're still waiting on that callCome on over tonight
Come on over this morning
Momma says, "You only fall in love once"
