

Until I Die

Brandi Carlile

Hey there, what's that in your sky with all the pretty lights
You think I can get that high?
So hey you man, where's your motivation and why the celebration
You've gotten nothing done here You wanna live until you die alone at will
And I can fly alone at will, I'm not so far below
I live beneath your sky with tainted eyes
I've made my mind to live until I die, hey, ooh, oh Run, run, run, catch me if you can, can, can
Come and hold my hand and I'll be your biggest fan
Hey, and followers living in your hollow words
I have seen your nine to fives wash away your dreams You wanna live until you die alone at will
And I can fly alone at will, I'm not so far below
I live beneath your sky with tainted eyes
I've made my mind, hey I'm just tired with all my time
To live until I die, ooh, oh, ooh
