

# In Your Car

Matthew

in your car...we could drive for a million miles  
i don't even care about it  
in my mind ...i'm seventeen, and we could leave it all behind  
in your eyes...lying dreams to remind me of my favourite summer  
we were just twenty-three, and we could leave it all behind  
in your car  
in your car...we could dream and scream out loud with the radio...  
mayonnaise
