

# Never

## Overseer

I came in the building  
I just wanted something better for me and my children  
Than the hate mixed with anger I'm cocking my banger  
My enemies are in danger even total strangers  
Sneaky bastards want to flame us  
I know that they watching  
Arrogance when they speak  
Like no one can stop them  
I'm hearing voices in my head telling me to pop'em  
Determination and frustration and that'll drop'em  
Blowing up the AK I'm ready to chop'em  
Tell the cops to bring buckets get ready to mop'em  
I came from the bottom  
I tried to be peaceful  
In the belly of the beast with the virus and meet you  
It's fucked up that's the way they treating my people  
Life is like a horror flick but I'm making a sequel  
Where the bullets grow teeth get hungry and eat you  
Where the angels'll greet you  
And I'd die for my people so my children get treated as equal, I never wanted you  
I took a chance on the other side but nobody survived  
Everyone was gone I never wanted you  
I was alive for the second time but nobody survived  
Everyone was gone They keep telling me war is the answer  
It's a disease of the spirit  
It's more than just cancer  
It runs through the blood deeply  
These cowards are sneaky  
They try 'n keep me quiet from starting a riot  
I try to be silent  
The solution is violence  
Couldn't see it any other way  
Bust a shot, one time for my run-away  
To all my kids who was used and abused  
To my teenage mothers who was young and confused  
To my fatherless children being born by the millions  
This is more than just a little noise  
I got a bullet for every child molester that ever touched a little boy  
You sick bastards!

Your punishment's coming fast and the system is hectic  
I mean every word it's not just a record  
It's seems like ever since they dropped the towers  
Everybody's been abusing they powers  
what's real! I, I never wanted you  
I took a chance on the other side but nobody survived  
Everyone was gone I never wanted you  
I was alive for the second time but nobody survived  
Everyone was gone Oh no, they don't give a damn about us  
Oh no, they can't give a damn about us
