

# A Person Like You (LP Version)

**Fanny**

You're not the kind of friend  
I'd like to take to home to my mother  
She wouldn't understand  
Someone I could love like a brother  
And me, i must admit  
You are not like any other -  
I have never known  
A person like you When I come home at night  
You're always there, waiting for me  
Climb in, turn out the light  
And tell me a bedtime story  
And me I feel so right  
I know I don't have to sorry  
It comes with you  
A person like you My folks say they're doubting your intentions  
You don't live according to conventions  
That's all right  
I can make with a friend like you My friends say i've lost my inhibitions  
We're not in the ususal positions  
That's all right  
I'm contended with a friend like you
