

Should We Go Downtown

The Ready Set

Is it less picturesque than planned
Here in your car with empty hands
No ones holding
When I glance at you with a glimpse of blue
Should we go downtown
Are we chasing cars in our sleep
Clinging to the lives we don't lead In way over your head
But you're over it
You know you don't need love like that
Every now and then again
Come on breathe me
I'm gonna bring your light back
Should we go down town
Should we go down town
We step outside you bring your friends
So it won't end up back at cigarettes and kissin'
And I don't touch you, goddamn I want to
Can we go downtown Are we chasing cars in our sleep
Clinging to a plastic fantasy In way over your head
But you're over it
You know you don't need love like that
Every now and then again
Come on breathe me
I'm gonna bring your light back
Should we go downtown?
Should we go downtown?
Should I be fine with it?
I'm not fine with it
And you should know that where I stand
Is the inch of caving in, I could use a swig
So can we just go downtown?
Yeah we should go downtown
We should go downtown
Downtown In way over your head
But you're over it
You know you don't need love like that
Every now and then again
Come on breathe me
I'm gonna bring your light back
