

# It's Gonna Work Out Fine

Carole King

We've been putting each other  
Through a hard time  
And it's a mighty good feeling to  
Know we're gonna work it out  
It's gonna work out  
Yeah, it's gonna work out fine Take a look at the way it's going now  
Makes you want to give a sigh of relief  
You know the last thing I ever  
Wanted to do  
Was to give you any grief  
I guess it was a situation  
That was bound to come up someday  
But our feeling for each other won out  
And I'm oh so glad to say We've been putting each other  
Through a hard time  
And it's a mighty good feeling to  
Know we're gonna work it out  
It's gonna work out  
Yeah, it's gonna work out fine Even the best of relationships  
Run the risk of going awry  
There's a lot two people who care  
about each other  
Can do to make each other cry  
Ain't it funny how it took a reunion  
To help us to really see  
With each other is the only way we can ever be
