

Leave It All Behind

Rage

I don't wanna leave this world behind
Was the only thing I had in mind, yeah
Now you've sent the angels back
I need them here on earth
'Cause eternity can be a long, long time
Don't turn your back on me, don't take away my choice
'Cause reality is lyin' to my mind, so now I wanna leave it all behind
I'll leave it all behind
I need a window out of time
Leave it all behind
Ooh Tell me 'bout the secrets of my life
What is it that makes me feel this way? Yeah
I can feel my energy, it's turned against myself
Like a downwards spiral heading straight to Hell
Maybe I could let it be and leave it all undone
'Cause I'm stumbling and it's time to say goodbye, goodbye I wanna leave it all behind
I'll leave it all behind
I need a window out of time
leave it all behind, yeah
I'll leave it, leave it, leave it, leave it, leave it, leave it I can feel my energy, it's turned against myself
Like a downwards spiral heading straight to hell, to Hell
Don't turn your back on me, don't take away my choice
'Cause I'm stumbling and it's time to say goodbye, goodbye I wanna leave it all behind
I'll leave it all behind
I need a window out of time
Leave it all behind, daa
Aah, leave all behind
