# If It Made a Difference

## Jennifer Knapp

Sorry, I told you I was wrong
Sorry, I don't care
Sorry, I stayed here for too long
But I got a feeling you're not going anywhereAnd if it made a difference
I'm might grin and take it all in stride
Walk an extra mile just for your pride
If it made a difference
Everyone could surely see by now
I am the only one who ever triedSorry I ever gave a damn
Sorry I even tried
Won't you waste on the better parts of me?
I'm not just anyone who came to mindIf it made a difference
I'm might grin and take it all in stride
Walk an extra mile just for your pride
If it made a difference
Everyone could surely see by now
I am the only one who ever triedTo give you cause for reason
I gave you time
Sorry, love but I believe in
Out of memory, out of mindIf it made a difference
I'm might grin and take it all in stride
Walk an extra mile just for your pride
If it made a difference
Everyone could surely see by now
I am the only one who ever triedI am the only one who ever tried
To leave you behind
