

Run

Rex Goudie

We're just two people
Riding in circle that's spinning around
Just everyday people
Searching for something we've already found
And I'm just a guy
Who's in love with a girl
Not in front of me now you're so far away
And I need you right here in my arms
Baby, just run take a bus, take a plane, take a train
Baby, just run, run as fast as you can
Girl you'll find your way back
'Cause no matter wherever you are
There's no place on this earth thats to far, run
We're just two people
Wishing that we were together tonight
Just everyday people
Trying to make sense of this puzzle called life
And I'm just a guy
Who's in love with a girl
Not in front of me now you're so far away
And I need you right here in my arms
So baby, just run take a bus, take a plane, take a train
Baby, just run, run as fast as you can
Girl you'll find your way back
'Cause no matter wherever you are
There's no place on this earth thats to far, run
Sooner or later it's over
Passing you by and it's gone
There's Not enough time left to wonder
If your where you belong
Take a bus, take a plane, take a train
So baby just run
Take a bus, take a plane, take a train
Baby, just run, run as fast as you can
Girl you'll find your way back
'Cause no matter wherever you are
There's no place on this earth thats to far, run
