Fidelity

[Mint Condition](#)

Taught the ways of men since I was a child
Watching brothers in the streets running wild
They love a honey up then drop her back down
I'm here to give you solid loving pound for pound, yeaDon't worry about thing baby
I'll always do you right
Don't worry about a thing baby
I'll tell you about it girlDon't you know? You were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to youJust 'cause I'm a man don't mean I'll let you down
You've been my pride and joy, you're heart's safe and sound, yea
When I had nothing you were right by my side
I came from rags to rich, now I'm living high, yeaOh I still love it when we play all day
Looking at each other's eyes and find sweet things to say, yea
I understand a man who wants to fool around
But if he knew what I knew about you I know he'd always be downDon't worry about a thing, baby
I'll always treat you right
Hey hey yeah
Let me tell you girlYou were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to youI said, you were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to youDon't you worry about a thing
And I know that sounds so plain
'Cause I can tell you anything
To get me out of water
I know it's going to be rough sometimes
You never have to try to find anotherYou were always there for me
I could never let you free
Cross my heart that I can be strong
And devoted to you
