

Do Right By Your Woman

Bad Company

Do right by your woman, she'll do right by you
Do right by your woman, she'll do right by you Well you always gave me loving, though I treated you so bad
Changed my mind about wasting my time
Spending money and drinking wine Do right by your woman, she'll do right by you
Do right by your woman, she'll do right by you Well you always gave me loving, though I treated you so bad
I was changing my mind, wasting my time
Spending money and drinking wine Do right by your woman, she'll do right by you
Do right by your woman, she'll do right by you What I say, do right by your woman, she'll do right by you
Do right by your woman, she'll do right by you Do right by your woman, she'll do right by you
Do right by your woman, she'll do right by you
