

Suns Irrupt

Neon Indian

Old love eroded from time
You'll remember me soon
Last stars, I follow them nowhere
They follow me too
Suns irrupt sun irrupt suns irrupt
Suns irrupt sun irrupt suns irrupt
And I wake up and I wake up and I wake up
I wake up, I wake up, I wake up
Bloodlines erased from design
Before there was you
When you were swallowed in earth
I slept in a womb
Suns irrupt sun irrupt suns irrupt

Suns irrupt sun irrupt suns irrupt
And I wake up and I wake up and I wake up
I wake up, I wake up, I wake up
Suns irrupt sun irrupt suns irrupt
Suns irrupt sun irrupt suns irrupt
And I wake up and I wake up and I wake up
I wake up, I wake up, I wake up
[x2]Lost and it had to happen sometime
Gone but I'm waiting to be someone
[repeated](Old stars, I follow them nowhere they follow me too
Old stars, I follow them nowhere they follow me too)
