

Runaway

[Nina Sky](#)

Sometimes I feel like I wanna run away
Pack my things and make a quick getaway
From the drama surrounding and the world around me
Sometimes I feel like I wanna runaway
Pack my things and make a quick getaway
But my heart keeps pounding and it won't allow me I need some time to get away
From these problems in my life
To relieve my mind and put aside
All of this shit attackin' me inside All of this drama surrounding me
Drives me crazy constantly
I just need some time to breathe
And take my mind off of everything Sometimes I feel like I wanna run away
Pack my things and make a quick getaway
From the drama surrounding and the world around me
Sometimes I feel like I wanna runaway
Pack my things and make a quick getaway
But my heart keeps pounding and it won't allow me Try to keep it behind me
But I'm always reminded
Of everything that bothers me
In life you can't take breaks from reality Just keep on moving and keep on doing
What will keep my life running smoothly
Just a moment to relax, sit back alone
No one to bother me, I'll finally be free Sometimes I feel like I wanna run away
Pack my things and make a quick getaway
From the drama surrounding and the world around me
Sometimes I feel like I wanna runaway
Pack my things and make a quick getaway
But my heart keeps pounding and it won't allow me I gotta runaway, I gotta do it now
Gotta find some time alone somehow
I gotta runaway, gotta do it now
Gonna make it all work out I-I-I gotta runaway, I gotta do it now
Gotta find some time alone somehow
I gotta runaway, gotta do it now
Gonna make it all work out I-I-I gotta runaway, I gotta do it now
Gotta find some time alone somehow
I gotta runaway, gotta do it now
Gonna make it all work out I-I-I gotta runaway, I gotta do it now
Gotta find some time alone somehow
I gotta runaway, gotta do it now

Gonna make it all work out Sometimes I feel like I wanna run away
Pack my things and make a quick getaway
From the drama surrounding and the world around me
Sometimes I feel like I wanna runaway
Pack my things and make a quick getaway
But my heart keeps pounding and it won't allow me Sometimes I feel like I wanna run away
Pack my things and make a quick getaway
From the drama surrounding and the world around me
Sometimes I feel like I wanna runaway
Pack my things and make a quick getaway
But my heart keeps pounding and it won't allow me Sometimes I feel like I wanna run away
