# Someone Like Me

## Cyndi Lauper

Midnight falls on the snow-lit trees
And as I stand inside I know that I can't watch life through a window
My indecision is blocking the door
It's like a religion that I never ask for more
I might stumble and fall
What's someone like me doing in a life like this
Can't see what someone like me is doing in a life like this
Slipping back into the past
Sun comes up and streams through the blinds
And as I throw my clothes on, do my hair wrong, stare into my mirror
Telling myself that everyone falls
Take the first step, that's the trick of it all
Bounce back like a ball
What's someone like me doing in a life like this
I can't see what someone like me is doing in a life like this
Slipping back into the past
What's someone like me
Mind is filled with runaway dreams
Can't wake up, I don't know what it means
You see, I fell asleep with the television on
When I woke up it was gone
Rad my horoscope to see what's in store
Get a little lazy but ohh, I want more, ooh, I want more
Oh yeah, more
What's someone like me doing in a life like this
I can't see what someone like me is doing in a life like this
Slipping back into the past
What's someone like me doing in a life like this
I can't see what someone like me is doing in a life like this
Slipping back into the past
What's someone like me, someone like
Oh, what's somebody like me doing in a life like this
Oh, what's somebody like me doing in a life like this
