

Blind Revolution Mad

Winger

Into this world little boy brave
Charity heart faithfully prays
Heal the scars unto his eyes Salvage the goodness of dreams
never lived dreams never died
Again and again again and again
haunted by the trust of a child With no place to go now little boy brave
Wanders the streets faithfully prays
But his broken arrows once filled with pride Aimed and missed at the dreams
never lived dreams never died
Again and again again and again
haunted by the trust of a child Never give in never give up little boy
brave never lived never died Appears to be blind revolution mad
The mercy ends where the mercy began
Seems justified I'm turnin' this around
Jawbreaker lawmaker have in your way Campaign smokescreen ruined by the mainstream
Cities on remote control
Meanwhile vigilante gangs dig their fangs into the streets
They've overthrown
While plastic faces run for king of this disassociation land
I'm dying to find anyone who understands Behold one more Blind Revolution Mad
One more chance of a lifetime Rage runs rampant always been abandoned
Killin' for some pocket change
Blames being force fed rules governed by the fools
Slammin' you against the grain
And the nation's glued to CNN
To watch their own creation Behold one more blind revolution mad
One more chance of a lifetime, whoa, no
One more blind revolution mad Fee fi fo fum
(One for all and all for one)
Don't try to stop me
(Yeah I've already gone crazy) Now one for all and all for one
(Overthrow your kingdom come)
Don't try to stop me
('Cause you're the reason I'm crazy) Behold one more blind revolution mad
One more chance of a lifetime, whoa, no
One more blind revolution mad
(Mind in the gutter turned another boy bad) Whoa behold one more blind revolution mad
One more chance of a lifetime
(Dig their fangs into the streets)

One more blind revolution mad
(Revolution gone mad, revolution gone mad)
One more blind revolution
