Annie (Early Version)

Wolfsheim

And you're sitting in your room
Enjoying entertainment
And you're watching TV
Colors bright and so enchantingYou couldn't be near her
Wouldn't hear what Annie says
When Annie's sad, you couldn't be near her
Wouldn't hear what Annie saysAnd your waiting for your daily
Thrill impatiently to collect it for your private horror show
And you're watching moving shadows live instead of you
And you, you don't know that Annie's living next to youJesus Christ we love you so since we saw your TV show
Suicidal tendencies but no will to interfere
Feel it coming over you indifference, indifference
Choosing channels watching news, ignoring Annie's point of viewYou couldn't be near her
Wouldn't hear what Annie says
When Annie's sad you couldn't be near her
Wouldn't hear what Annie saysYou couldn't be near her
Wouldn't hear when Annie laughs
When Annie laughs you couldn't be hear her
Wouldn't feel that Annie, Annie, Annie loves
