

If Only for Now

Pop Evil

Streets crowded with voices
Thousand of faces, but you're what I want to see
Lights, reflections of yesterday
Days that I've thrown away
You're all I wanna keep So if you lay here with me now
I promise the stars, they won't make a sound
If you stay, just for a while
'Cause we know the world won't ever slow down
If only for now, right now, if only for now Here, the world's at our fingers
So live in the moment
I'm not gonna say goodbye So if you lay here with me now
I promise the stars, they won't make a sound
If you stay, just for a while
'Cause we know the world won't ever slow down
If only for now, right now, if only for now So why don't we, for now, forget tomorrow, tomorrow
Let me be the only thing you need, if only for now So if you lay here with me now
I promise the stars, they won't make a sound
So if you lay here with me now
I promise the stars, they won't make a sound
If you stay, just for a while
'Cause we know the world won't ever slow down
If only for now, right now, if only for now If only for now, right now, if only for now
