She

Human Nature

If I hailed a taxi cab
Would it send me the right way?
If I had another chance
Would I want to change my life today?
'Cause lately, I've been thinking
Is it really worth the ride?
But she's the one that's telling me
Just to give it one more try
When I'm lost
And just don't know what to do
She's the voice in me
Just guiding me through
I'm never gonna leave her, she's my friend
I'm never gonna run away to find a better day
And I'm never gonna tell her goodbye
She's the reason I'm alright
I don't need a way to see tomorrow
Where I'll be, I could wish for many things
But the future ain't all up to me
She's the one I trust in
Like I trust the beating of my heart
Never gonna lose my way
'Cause I found my guiding star
When I'm down
And just don't know what to do
She's the voice in me
Just guiding me through
I'm never gonna leave her, she's my friend
I'm never gonna run away to find a better day
And I'm never gonna tell her goodbye
She's the reason I'm alright
I'm alright, she's the reason why
I'm never gonna leave her, she's my friend
I'm never gonna run away to find a better day
And I'm never gonna tell her goodbye
She's the reason I'm alright
