

# Solidarity

## Fermã:ta

People of the world together  
Join to serve the common cause  
So it feeds us all forever  
See to it that it's now yours  
Forward without forgetting  
Where our strength can be seen now to be  
When starving or when eating  
It's forward not forgetting our solidarity  
Black or white or brown or yellow  
Leave your old disputes behind  
Once you start talking to your fellow men  
You'll soon be of one mind  
If we want to make this certain  
We'll need you and your support  
It's yourselves you'll be deserting  
If you rat on your own sort  
Forward without forgetting  
Where our strength can be seen now to be  
When starving or when eating  
It's forward not forgetting our solidarity  
All the gang of those who rule us  
Hope our quarrels never stop  
Helping them to split and fool us  
Just so they can remain on top  
Forward without forgetting  
Till the concrete question is hurled  
When Starving or when eating  
Whose tomorrow is tomorrow?  
And whose world is the world  
Solidarity
