

# All Your Love

Norah Jones

All of your love, baby, can it be mine  
All of your love, baby, can it be mine  
I hate to be the one  
The one that you left behind  
All of your love, baby, don't you fool around  
All of your love, baby, don't fool around  
Love is the one thing, baby  
That you won't find on the ground  
All of your love, I've got to have it, one of these days  
All of your love, I've got to have it, one day  
Don't you leave me sweet baby  
Please come on back this way  
Come on back this way  
Give me all your love  
Give it to me right now  
All o' your, all o' your  
All o' your, all o' your love  
Don't mess around  
With my love, baby  
All o' your love  
And we've got to have it  
One of these days
