

# Do Not Do

## Bodyjar

If you could help me find a way,  
then I would find a way, yeah..

If there's an answer then I'm,  
sure I'll know it too,  
not just you..

The days are too long and now I need,  
someone to see,  
then tell me.

Don't get me wrong.

Don't get me right.

Don't get me through.

Don't need to.

Do not do, do not do..

Do not do, what she tells you to.
