

# The Seven Seas

## THE BAWDIES

I searched the seven seas  
To find a queen for me  
So many years alone, 'til I met you girl Across the seven seas  
You're the only one for me  
You'll be my only queen, for the rest of time But you said to me that you needed some time  
And you didn't know what would come tomorrow  
All I want is for you to see  
That right now, it feels so good I wanna be with you, I wanna be with you  
Baby, we'll be happy forever and ever  
Seven days a week, everyday just you&me  
We'll sail the seven seas  
Babe, just you and me  
Until we find a land we can call our own Everything you need, it's with me  
Everything you do, with you I'll be  
It's true, it's true  
Oh I'm so in love with you But you said to me that you needed some time  
And you didn't know what would come tomorrow  
All I want is for you to see just how much you mean to me  
'Cause right now, it feels so good I wanna be with you, I wanna be with you  
Baby, we'll be happy forever and ever  
Seven days a week, everyday just you&me I wanna be with you, I wanna be with you  
Baby, oh you don't have to worry  
Seven days a week, everyday just you&me  
I will never lie to you  
I'll always be with you  
I will never lie to you  
I'll always be with you
