Step Lightly

Shelley Manne

Step lightly
Youre movin too fast
Take your time boy
Soon the pain will passIn the meantime
You gotta find yourself
A love thats going to lastStep lightly
Things will work out just fine
Nice and easyAll it takes is time
Please believe meI wish this song was yours instead of mine
Now dont be angry at what Im telling you
Id be happy if youd sing it tooBut in the meantime
Find yourself a love thats true to you
But in the meantime
Find yourself a love thats going to lastNow I told you
If things dont work out fast
Gotta go now
Lets forget the pastBut in the meantime
You got to find yourself a love thats going to last
You got to find yourself a love thats going to last
You got to find yourself a love thats going to lastYou got to find a love thats going to last
You got to find a love thats going to last
