

Trance Is the Motion

Static-X

Speed toward hell, shed no tears you
Don't know me take my life
Steal my tongue with defeat your taste
Could never criticize
No better, than better, than you it's easier to lie
Than to tell the truth
You've become the waste that I despiseSpeed toward hell, shed no tears you
Don't know me take my life
Steal my tongue to defeat your taste
Could never criticize
No better, than better, than you it's easier to lie
Than to tell the truth
You've become the waste that I despise
This is the motion of the new revolution
This is the motion of the new revolutionThis is the motion of the new revolution
This is the motion of the new revolutionThe trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
The trance is the motion
(This is the motion of the new revolution)
This is the motion of the new revolution
