

# Turn Off the Lights

[Nadine Sutherland](#)

chorus;

i'm turning off the lights it's been burning too long  
each night i burn them on and on  
wishing you would show but again i'm wrong  
i'm thinking what's wrong with me

verse;

been watching the clock on the wall the hands are on twelve  
it's midnight and you're not here  
got me doing this again  
baby we've got something to talk about  
baby got important things to do  
this is too confusing for me i wonder what's up with you

chorus;

verse;

ask you if there's somebody else, you tell me no  
you don't wanna lose me, don't wanna let me go  
maybe you been working too long  
maybe you got important things to do  
but your woman needs some attention i wonder whats up with you

chorus;

baby we've ot something to talk about  
baby got important things to do  
this is too confusing for me i wonder what's up with you

chorus
