

Death Unlimited

Norther

Saatana!vittu!perkele!Welcome to my world of death and pain
Oh it drives you so insane
I am no blast from the past
Because I'm death and I'm everlastI'm the future breed, evil and mean
A fucking killing machine
No-one will stay alive and see
They all will die and join meFuck you and die, Living is so damn painful
It's cool to be dead and grateful
Nothing can hurt you anymore
Anyhow death is so much moreYou can just kill, kill and kill
Just kill em all if you will
Do you still wanna stay alive
Or join me me by my sideI am the Death Unlimited
And death is all I have to give
Let me spill your sweet blood
And to you I am godCan you feel the dark side calling
It's useless to resist
Give in to fear, hate and anger
Then life won't take your time any longerOnly I am by your side
Soon your life is gone
And that I adore[Solo: Lindroos]
[Solo: Ranta]
