

# Long Distance

## The Naked Brothers Band

I sing this song from the sky  
No matter if it's heaven or hell  
I know I love that girl  
But it wouldn't work out well  
I'd be sitting there all alone  
Counting day after day  
I knew she wouldn't come home  
It wouldn't work out that way  
[Chorus]'Cause long distance relationships  
Will kill you [3x]  
Long distance [3x]  
The night I woke up the dream  
I knew it was the end  
You didn't make me cry baby  
Or even let me bend  
And I know  
I know, I know  
[Chorus]  
'Cause long distance relationships  
Will kill you [3x]  
Long distance [3x]  
I didn't wanna let you go  
But baby it was wrong and right  
I didn't wanna make you cry  
And maybe stop your lies  
Whoo!  
I just wanted to hold you in my arms  
And tell you it's alright  
But I knew that'd be long chance  
[Chorus]'Cause long distance relationships  
Will kill you [3x]  
Long distance [3x]  
[Chorus]'Cause long distance relationships  
Will kill you [3x]  
Long distance [3x]
