

In My Feelings

Lana Del Rey

I'm smokin' while I'm runnin' on my treadmill
But I'm comin' up roses
Could it be that I fell for another loser?
I'm cryin' while I'm cummin'
Makin' love while I'm makin' good money
Sobbin' in my cup of coffee
'Cause I fell for another loser
Get that cigarette smoke out of my face
You've been wastin' my time
While you're takin' what's mine with the things that you're doin'
Talk that talk, well now they all know your name
And there's no comin' back from the place that you came
Baby, don't do it
'Cause you got me in my feelings
(Got me feeling so much right now)
Talkin' in my sleep again
(I'm makin' love songs all night)
Drown out all our screamin'
(Got me feelin' so crazy right now)
Who's doper than this bitch?
Who's freer than me?
You wanna make the switch? Be my guest, baby
I'm feelin' all my fuckin' feelings
I'm smokin' while I'm runnin'
This town and you better believe it honey
I'm laughin' as I'm taking no prisoners
And taking down names
I'm cryin' while I'm gunnin'
In the smoke they can hear me comin'
If you were me, and I was you
I'd get out of my way
Get that cigarette smoke out of my face
You've been wastin' my time while you're takin' what's mine
Well, you know what you're doin'
Talk that talk, well, now they all know your name
And there's no comin' back from the place that you came
Baby, don't do it
'Cause you got me in my feelings
(Got me feelin' so much right now)
Talkin' in my sleep again
(I'm makin' love songs all night)
Drown out all our screamin'

(Got me feelin' so crazy right now)
Who's doper than this bitch?
Who's freer than me?
You wanna make the switch? Be my guest, baby
I'm feelin' all my fuckin' feelings
Got me up in this place right now
Makin' no sense at all
Got me up in this place right now, against the wall
Got me feelin' so blue
Makin' no sense at all
Gotta leave right now 'Cause you got me in my feelings
(Got me feelin' so much right now)
Talkin' in my sleep again
(I'm makin' love songs all night)
Drown out all our screamin'
(Got me feelin' so crazy right now)
Who's doper than this bitch?
Who's free-er than me?
You wanna make the switch? Be my guest, baby
I'm feelin' all my fuckin' feelings
