

# Sing Along With the Patriotic Punks

## Death By Stereo

you can take my work. you can take my place.i think youre a fool.i think you have bad taste.you can take your flag.you can take youre pride.you can bend right over.your assholes open wide.open wide,here i come!yeah right, ive got pride.pride in a system,thats designed,to waste all your minds.go! usa,its the way,so wave them real on flag day.its your right to be proud.so scream it and shout it,shout it out loud.buy into lies,the government feeds your meathead mentalitie.go,dont do it for you,but for state,country,natoinal church.its the way today your paycheck will wash sins away,its ok dont be afraid until uncle sam robs you blind.did you hear what i said you are blind.my country tis of thee,sweet land of liberty full of national pride come on baby open wide!you can take my work.you can take my place,you can let me win,spit right in your face,spit right in your fucking face!
