

# Extra Extra

## School Gyrls

Extra extra,  
Eh-eh-extra extra extra  
Eh-eh-extra extra extra  
Eh-eh-eh-extra extra extra extra extra extra  
I got this issue girl with the things that you've been saying  
Ain't tryna dis you girl but I'm done with the games your playing  
I tell you all the time stay up out my biz but you can't mind your own  
And that's what the issue is  
So when you see that it's all good and that's how everything is gonna be  
But when you see me with my boy you do the same thing you do all the time  
You be like where he at and where you goin  
Who's that texting and who you callin  
I won't take it personally 'cause you just hate on everything  
She's on the extra extra you can read all about it  
She's got an issue with me being with you  
She's on the extra extra, why you gotta be so extra extra  
She's on the extra extra, wh-why you gotta be so extra extra  
You make excuses saying that he ain't this and that for me  
I'm on the phone with him and you behind be saying things  
You act like you're the police of our love but you're tryna mess it all up  
You need to fall back, get off of my back  
So when you see that it's all good and that's how everything is gonna be  
But when you see me with my boy you do the same thing you do all the time  
  
You be like where he at and where you goin  
Who's that texting and who you callin  
I won't take it personally 'cause you just hate on everything  
She's on the extra extra you can read all about it  
She's got an issue with me being with you  
She's on the extra extra, why you gotta be so extra extra  
She's on the extra extra, wh-why you gotta be so extra extra  
Jacque Nimble, Jacque Nimble let me put these chicks in their place real quick  
Instrumental, instrumental that's when I'm about to flip when I spit on this  
Extraordinary flow, hysteria every where we go  
On the track, Jacque, Mandy, Mo  
It's like go-go gadget expect for sho  
We about to blow, respect the dough 'cause it's so incredible  
When the School Gyrls come into the party there's just one thing we got to know  
Why you gotta be so extra extra

Why you gotta be so extra extra  
Why you gotta be so extra extra  
Always so extra extra  
She's on the extra extra you can read all about it  
She's got an issue with me being with you  
She's on the extra extra, why you gotta be so extra extra  
She's on the extra extra, wh-why you gotta be so extra extra  
She's on the extra extra you can read all about it  
She's got an issue with me being with you  
She's on the extra extra, why you gotta be so extra extra  
She's on the extra extra, wh-why you gotta be so extra extra
