

Intro

Busta Rhymes

As we approach the current time frame of 1997
With approximately two and a half years before the year two thousand
Repeatedly it has been reported that there will be
A time soon approaching
That major disaster will be striking
All levels of existence
It has also been reported that this disastrous thing will be
Approaching in the form of
Many, many as in squad
Squad as in Flipmode squad
It has also been reported that
Everyone out of the many will strike
But this particular motherfucker
Will strike with an unmeasurable blast
That will fuck up everything
Within his 360 degree radius
Warning, prepare yourselves
Store your food, stamp your paper
Because when this motherfucker gets here
It's about to get real fucked up for
Everyone and everything, everywhere!
Well, Busta Rhymes
Come on over here and let me talk to you son
See know Dolomite just got back from some shit
That you about to be it
Well are you prepared
I hope you are prepared nigga
'Cause you know this is album number two
Yes more bitches than before
There'll be more bitches, more and more and more
More thirsty niggas tryin' to get inside your shit
Tryin' to throw your whole chemistry off
Oh yes, that's gonna be a lot more money
Yes a lot more money than before
But son don't you worry about none of that shit
All you gotta do is just slap your dick in the mouth of these bitches
That don't wanna act right
And put a hot one in any motherfucker
That wants to get in the way of this power move shit right here
Ok son, alright Busta
Enough of this shit talkin'

Let's be on our way
'Cause when disaster strikes
There's gonna be a whole lot of motherfuckers pourin' in
Alright baby, let's goYo, yo, yo, yo, yo, yo
Ladies and Gentlemen
Straight from the motherfuckin' street corner
Goin' out to all you motherfuckers across the globe
On the return trip
It be the niggas
The niggas that live by the code of blood honor
My Flipmode niggas
Straight bring you that shit to another extreme
And hit of you motherfuckers
With a strike of disaster
I bring on to you once again
The eighth wonder of the world
My nigga
Busta Rhymes
Yeah
And I be that nigga
That live nigga
Spliff I Spliff
Comin' through right at you
Wherever the fuck you at
Flipmode is the Squad
Comin' through right at you wherever the fuck you at
