

# Wait No More

Jhene

So here we are again, boy, this always happens  
It ain't like we scared but we know what happens  
When things move to fast but should be moving slow  
And it makes me want you more

Oh, boy

I been wanting this more than you know, boy  
It's killing me but we should take it slow, boy  
It'd be so much better if we wait till we can't wait no more  
Boy, the love is there so there's no need for rushing  
You can come right here but don't you start that touching  
It'd be so much better if we let this build up  
It's worth the wait for something bigger

Oh, boy

I been wanting this more than you know, boy  
It's killing me but we should take it slow, boy  
It'd be so much better if we wait till we can't wait no more

Oh, boy

I been wanting this more than you know, boy  
It's killing me but we should take it slow, boy  
It'd be so much better if we wait till we can't wait no more  
Baby, we got time, I'll be worth the wait  
We got the ingredients just let 'em marinate  
When the time is right

Promise you, it'll be a night that you won't forget the rest of your life

Oh, Boy

I been wanting this more than you know, boy  
It's killing me but we should take it slow, boy  
It'd be so much better if we wait till we can't wait no more

Oh, Boy

I been wanting this more than you know, boy  
It's killing me but we should take it slow, boy  
It'd be so much better if we wait till we can't wait no more
