

# What a Way to Go

## Seasick Steve

What a way to go  
What a way to go  
What a way to go  
What a way to go Twenty five years working for the state  
Saved all your money, got a good rate  
Always thinking 'bout that pension plan  
The day of retirement, the promised land, well Got a finish off that swimming pool  
Get some umbrellas, don't wanna be cool  
Remember to take them fishing trips  
You never had time for, this is it The day of retirement have finally come  
Get a gold watch and your work is done  
One month later your heart give out  
What was all that planning about? What a way to go  
What a way to go  
What a way to go  
What a way to go Well, they finally lay you in the ground  
Your wife and the children standing around  
Now they got that pension plan  
Rather have you, don't you know it, man What a way to go  
What a way to go  
What a way to go  
What a way to go What a way to go  
What a way to go  
What a way to go  
What a way to go
