

Security (Performance Track In Key of Bb)

Stacie Orrico

Another day all alone again
Someone please love me
Another game, another broken heart
Why do I do this to myself If I could look and try to find someone
That's won't leave me lonely
But then I found I didn't need to search
'Cause you were the one and you carried me You fought for my heart and you have won it
You're taking me over and I like that
I tried other love but couldn't feel it
I'm so glad you found me because I need you so close to me
('Cause you're the)
Only one that makes my life complete
(And Lord I)
Know it took so long to see
That you're my security You won't go away from me
(And now I)
Know that I don't ever have to worry
'Cause my heart feels so very free
You're my security
You are my security
You are my security Another day, here I go again
Drive myself insane
Stop to think, how could I forget
You're with me every single day Now I look and I see the one
The only one for me
'Cause I don't need to search for
A way to try to be more
I have found a love that's so secure You fought for my heart and you have won it
You're taking me over and I like that
I tried other love but couldn't feel it
I'm so glad you found me because Other relationships confuse me
The thought of your simple love is crazy
You make me feel like no one has before I need you so close to me
('Cause you're the)
Only one that makes my life complete
(And Lord I)
Know it took so long to see
That you're my security You won't go away from me
(And now I)

Know that I don't ever have to worry
'Cause my heart feels so very free
You're my security I need you so close to me
('Cause you're the)
Only one that makes my life complete
(And Lord I)
Know it took so long to see
That you're my security You won't go away from me
(And now I)
Know that I don't ever have to worry
'Cause my heart feels so very free
You're my security I need you so close to me
('Cause you're the)
Only one that makes my life complete
(And Lord I)
Know it took so long to see
That you're my security You won't go away from me
(And now I)
Know that I don't ever have to worry
'Cause my heart feels so very free
You're my security I need you so close to me
('Cause you're the)
Only one that makes my life complete
(And Lord I)
Know it took so long to see
That you're my security You won't go away from me
(And now I)
Know that I don't ever have to worry
My heart feels so very free
You're my security
