

RX Queen

Deftones

I won't stop following you
Now help me pray for
The death of everything new
Then we'll fly farther 'Cause you're my girl
And that's alright
If you sting me
I won't mind We'll stop to rest on the moon
And we'll make a fire
I'll steal a carcass for you
Then feed off the virus 'Cause you're my girl
And that's alright
If you sting me
I won't mind 'Cause you're my girl
And that's alright
If you sting me
I won't mind I see a red light in June
And I hear crying
You turn newborn baby blue
Now we're all the virus You're my girl
And that's alright
If you sting me
I won't mind 'Cause you're my girl
And that's alright
If you sting me
I won't mind Sting
Sting
Sting
