

Rocketship

Shiny Toy Guns

Can we get away? Far away
Lets leave this place
Will you come with me?
Are you down to turn your world around It's you and me tonight
Leave it all behind Lets go for a ride Say goodnight to gravity
Hold on to me
The passing stars light the way
The future's here today It's you and me tonight
Leave it all behind Get in my rocketship
Well leave the light of day
Staying on the turning away
Theres no tomorrow Just today
Together we will follow, fly away
Never mind tomorrow
Just today Leave it all behind
Lets go for a ride
