

Heart That Won't Stop Loving You

Balsam Range

You walked away from me and this child
I dried her tears last night
Gently I rocked her while I quietly cooed
With a heart that won't stop loving you I've got a heart that won't stop loving you
I'm feeling helpless, I do
Why did you leave, I'm so confused
I've got a heart that won't stop loving you Deep in the night our baby screamed
She sought for mommy to come
I told her I hoped that daddy will do
I've got a heart that won't stop loving you I've got a heart that won't stop loving you
I'm feeling helpless, I do
Why did you leave, I'm so confused
I've got a heart that won't stop loving you Now here you stand pleading with me
You ask if I can forgive
My mind is shouting not to try to
But my heart won't stop loving you I've got a heart that won't stop loving you
I'm feeling helpless, I do
Why did you leave, I'm so confused
I've got a heart that won't stop loving you What will it change if I take you back
How can I know you'll try
I can't let go of the good times we had
Tell me, have your feelings died I've got a heart that won't stop loving you
I'm feeling helpless, I do
Why did you leave, I'm so confused
I've got a heart that won't stop loving you Why did you leave, I'm so confused
I got a heart that won't stop loving you
