

Come on Baby

Mapei

Baby I'm riding down the freeway
Pass me money to spend,
Where'd you wanna go with me?
Take this, dumb off all from your bag now
Just come put it on me, it only gets better
We're out this motherCome on, baby
Nothing is at all as our only hope
You should be my man, baby!
You should be my man, baby!Come on, baby!
Come on, baby!I could be the one to protect you,
Nothing bad will affect you
In your eyes all I see is me, yeah
That's right, the roles are reversed now,
It seems like you're really feeling me
Am I worth the up-pursue
So tell me nowCome on, baby
Nothing is at all as our only hope
You should be my man, baby!
You should be my man, baby!Come on, baby!
Come on, baby!Most dudes out there aren't quiet like you
I've got a pocket full of love, and a couple of suits
Can we take a long ride until the sun is due?
I'll put my Mag down, how about me and you
Gang, ain't no feeling better than I'd have you by my side
Ask me to whatever, and I'll tell you it's alright
You should be my man, I should be your bride
Not just for the night, but for the rest of our lives
Come on!You should be my man, not only my friend
Try to understand, I need you
Oh, yes I do!Come on, baby
Nothing is at all as our only hope
You should be my man, baby!
You should be my man, baby!Come on, baby!
Come on, baby!
